

# Finish Your Research Project

## Whether Your Supervisor Likes You or Not®

### Research Topic Selection Worksheet – Natural Science

Prompt	Your Response
<p>A. What is your discipline of study? E.g. information systems</p>	
<p>B. What aspect of your discipline are you interested in? NB: your answer should be something that can have an effect on something else.  E.g. social media can affect student's academic performance. (social media is thus an <b>independent variable</b>)</p>	
<p>C. What do you believe your independent variable can affect?  E.g. student's academic performance.  NB: Your answer may be something either within or outside your discipline. Your answer here becomes your <b>dependent variable</b>.</p>	
<p>D. In which setting or context do you want to undertake this study? e.g. higher education institutions in Ghana</p>	
<p>E. Do you know and have access to any individual / group/ organisation / society that exhibits the relationship between your independent and dependent variables? (Yes / No).</p>	
<p>F. Your Potential Project Title NB: combine "B", "C", and "D"</p>
